

# M082 Hall at Dean Park Parish Church

## Introduction

In 1893–4, John Honeyman & Keppie added a two-storey hall to the N. of the church designed 20 years earlier by John Honeyman. Drawings submitted to the Glasgow Dean of Guild Court show a plain building in yellow sandstone, a large hall on each of the two floors, and a hallway and stair at the S. end connecting to the church.

**Authorship:** This is one of over 270 jobs carried out in the office of John Honeyman & Keppie (Honeyman, Keppie & Mackintosh from 1901) during Mackintosh's time there. Mackintosh undoubtedly worked on many of these, but there is no specific evidence for his involvement in this case.

**Alternative names:** St Kieran's Dean Park Parish Church.

**Cost from job book:** £1057 2s 1d

**Status:** Demolished

**RCAHMS Site Number:** NS56NE 1801

**Grid reference:** NS 56045 65270

## Job Book

The job books of Honeyman & Keppie (later Honeyman, Keppie & Mackintosh) are now held by The Hunterian, University of Glasgow and include four volumes related to the Mackintosh period. The books were used by the firm to keep a project-by-project, day-by-day record of contractors, suppliers and

expenditure. The name of a project and/or client is usually at the top of the left-hand page, followed by information about tradesmen who tendered. The name of the measurer (quantity surveyor) is usually at the top of the right-hand page, followed by information about payments to contractors and suppliers. All of the data for M082 is entered in the tables below.

Page numbering is not consistent in the job books. Sometimes a single number refers to a double-page spread and sometimes each page is individually numbered. Here, each image of a double-page spread is identified by the number given at the top of the left-hand page. (Images of all of the pages from the four job books can be found at [Browse Job Books](#), [Visit Book and Cash Book](#).)

The following information about M082 has been extracted from the job books:
